### **REMARKS**

The present response is intended to be fully responsive to all points of objection and/or rejection raised by the Examiner and is believed to place the application in condition for allowance. Favorable reconsideration and allowance of the application is respectfully requested.

Applicant asserts that the present invention is new, non-obvious and useful. Prompt consideration and allowance of the claims is respectfully requested.

### **Status of Claims**

Claims 1-27 are pending in the application. Claims 5-8, 10-11, 14-17, 21 and 23 have been amended. Applicant respectfully asserts that the amendments to claims 5-8, 10-11, 14-17, 21 and 23 add no new matter to the application.

Claims 1-4, 9, 22 and 24-27 have been canceled without prejudice. In making this cancellation without prejudice, Applicant reserves all rights in these claims to file divisional and/or continuation patent applications.

New claims 28 and 29 have been added. It is respectfully submitted that no new matter has been added to the application.

### **Allowable Subject Matter**

In the Office Action, the Examiner stated that claims 5-8, 10-21 and 23 would be allowable if rewritten in independent form including all the limitations of the base claim and any intervening claims. Claims 5-8, 10-11, 14, 16-17, 21 and 23 have been rewritten in independent form including all the limitations of the base claim and any intervening claims. Claims 12 and 13 are each dependent, directly or indirectly, from independent claim 11 and incorporate all the elements of this claim. Claim 15 is dependent from independent claim 14 and incorporates all the elements of this claim. Claims 18-20 are each dependent, directly or indirectly, from independent claim 17 and incorporate all the elements of this claim. Accordingly, claims 5-8, 10-21 and 23 should now all be in condition for allowance.

#### **Remarks to amended claim**

Applicant has amended claim 15 to correct a typographical error. It is respectfully submitted that this amendment does not add new matter and does not change the scope of the claim in any way that could affect that determination by the Examiner that this claim is allowable.

#### **Remarks to new claims**

New claims 28 and 29 have been added to more clearly define the subject matter claimed by the present Application. It is respectfully submitted that new claims 28 and 29 add no new matter. New claims 28 and 29 are each dependent from independent claim 5 and incorporate all the elements of this claim. Accordingly, claims 28 and 29 should be in condition for allowance.

#### **CLAIM REJECTIONS**

##### **35 U.S.C. § 103 Rejections**

In the Office Action, the Examiner rejected claims 1-4, 9, 22 and 24-27 under 35 U.S.C. § 103(a), as being unpatentable over Tamamura et al. (U.S. Patent No. 5,602,927) in further view of Rasmusson (U.S. Patent No. 4,475,731).

As claims 1-4, 9, 22 and 24-27 have been cancelled without prejudice to their reentry in a continuation of divisional application, these rejections are now moot.

#### **Conclusion**

In view of the foregoing amendments and remarks, the pending claims are deemed to be allowable. Their favorable reconsideration and allowance is respectfully requested.
